

BEDAUX SERIOUS GAMES

**Bedaux Car Assembly Game has won a prestigious award
2 October in Lisbon!**

Most Ambitious Game 2017

We have played the Car Assembly Game with members of the jury October 1 in Lisbon. 2 October we have met with fellow finalists which resulted in interesting new contacts and ideas. After an exciting jury meeting, the outcome was that evening: "Most Ambitious Game, for the game that successfully addresses the most challenging learning objective."
The chairman of the jury was Dr. John Bourke, president of the BEX Institute (right in the picture).
